	CENTRAL INTELLIGICE AT INFORMATION	GENCY REPORT
LINTEN	State of the state	√>, 50X1-HU
UNTRY	USSR (Urals)	DATE DISTR. 9 August 1948
BJECT	Factories in the Urals	NO. OF PAGES 1
ACE QUIRED		NO. OF ENCLS.
TE OF		SUPPLEMENT TO 50X1-HUN REPORT NO.
	CONTAINS THE CONTAINS AND	VALUATED INFORMATION FOR THE RESEARCH
R INFORMATIO	REPRODUCTION OF THIS FORM IS PROMIDITED. TIDY- IN COMPANIED IN BODY OF THE FORM MAY BE UTILIZED TO BRAND BY THE OCCEIVING AGENCY.	OF TRAINED INTELLIGENCE ANALYSTS 50X1-HUN
	The Committee of the Co	
	a. 78 mm Borsig gum, similar to the Wehrn and ground use.b. 37 mm anti-aircraft gum, mounted on an	o SP chassis, with & barrels, which
	 and ground use. 37 rm anti-aircraft gun, mounted on an ean be fired singly, two at a time, or 25 rm anti-aircraft gun, normal single d. machine-guns, similar in appearance to not require changing. machine-pistols. a. A modern brickbuilt rubber goods factor 	meht double-role 58 mm for anti-aircraft a SP chassis, with & barrels, which all four at once. barrel. barrel. barrel does by is situated on the outskirts of
2.	 and ground use. 37 nm anti-aircraft gun, mounted on an ean be fired singly, two at a time, or 25 nm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. nachine-pistols. A modern bricktuilt rubber goods factor Sverdlovsk. In 1947 this factory employing internees of Volga-German ori 	meht double-role SS nm for anti-aircraft a SP chassis, with & barrels, which all four at once. b barrel. b Wehrmacht FG-42; the barrel does ory is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly gin.
2.	 and ground use. 37 rm anti-aircraft gun, mounted on an ean be fired singly, two at a time, or 25 rm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. machine-pistols. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory empl 	meht double-role SS rm for anti-aircraft a SP chassis, with & barrels, which all four at once. b barrel. b Wehrmacht NG-42; the barrel does bry is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly igin. all sorts, particularly tires and be worked, and the machinery is chough many old machines are still drivens the current is supplied
2.	 and ground use. 37 nm anti-aircraft gun, mounted on an can be fired singly, two at a time, or 25 nm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. nachine-pistols. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory employing internees of Volga-German ori The factory produces rubber goods of a raincoats. Three eight-hour shifts an gradually being brought up to date alt in use. All machinery is electrically from a power station in the town, which 	meht double-role SS nm for anti-aircraft a SP chassis, with & barrels, which all four at once. borrel. Wehrmacht MG-42; the barrel does bry is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly gin. all sorts, particularly tires and be worked, and the machinery is chough many old machines are still adriven; the current is supplied be is only lightly guarded by
2.	 and ground use. 37 nm anti-aircraft gun, mounted on an can be fired singly, two at a time, or 25 nm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. nachine-pistols. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory employing internees of Volga-German ori The factory produces rubber goods of a raincoats. Three eight-hour shifts an gradually being brought up to date alt in use. All machinery is electrically from a power station in the town, which 	mecht double-role SS nm for anti-aircraft in SP chassis, with & barrels, which all four at once. borrel. Wehrmacht MG-42; the barrel does ory is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly igin. all sorts, particularly tires and we worked, and the machinery is chough many old machines are still driven; the current is supplied the is only lightly guarded by 50X1-HUM Document No. 5 NO CHANCE in Class. 1
2.	 and ground use. 37 nm anti-aircraft gun, mounted on an can be fired singly, two at a time, or 25 nm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. nachine-pistols. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory employing internees of Volga-German ori The factory produces rubber goods of a raincoats. Three eight-hour shifts an gradually being brought up to date alt in use. All machinery is electrically from a power station in the town, which 	mecht double-role SS nm for anti-aircraft in SP chassis, with & barrels, which all four at once. barrel. bearrel. bearrel does ory is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly igin. all sorts, particularly tires and be worked, and the machinery is chough many old machines are still driveng the current is supplied the is only lightly guarded by 50X1-HUM Document No. No CHANGE in Class.
2.	b. 37 mm anti-aircraft gun, mounted on an ean be fired singly, two at a time, or c. 25 mm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. e. machine-pistols. a. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory emple civilian internees of Volga-German or internees of Volga-German or internees. Three eight-hour shifts an gradually being brought up to date alt in use. All machinery is electrically from a power station in the town, whice civilian guards.	mecht double-role SS nm for anti-aircraft all four at once. barrel. barrel. behamecht MG-42; the berrel does ry is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly igin. all sorts, particularly tires and re worked, and the machinery is shough many old machines are still driven; the current is supplied the is only lightly guarded by 50X1-HUM Document No. 5 NO CHANCE in Class. 1 Limitation To: Ts s Auth: 10 A ADD 1070 Date: 2 8 ADD 1070 Date: 2 8 ADD 1070
2. STATE	b. 37 mm anti-aircraft gun, mounted on an can be fired singly, two at a time, or c. 25 mm anti-aircraft gun, normal single nachine-guns, similar in appearance to not require changing. e. machine-pistols. a. A modern brickbuilt rubber goods factor Sverdlovsk. In 1947 this factory emploivilian internees of Volga-German original internees of Volga-German originally being brought up to date alt in use. All machinery is electrically from a power station in the town, which civilian guards. CLASSIFICATION SECRET/CCUTROL. X NAVY NARE DISTRIBUTION	mecht double-role SS nm for anti-aircraft in SP chassis, with & barrels, which all four at once. borrel. Wehrmacht MG-42; the barrel does ory is situated on the outskirts of loyed 2,000 - 3,000 workers, mostly igin. all sorts, particularly tires and we worked, and the machinery is chough many old machines are still redrivens the current is supplied the is only lightly guarded by 50X1-HUM Document No. 5 NO CHANGE in Class. 1 Limit of the current
